Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Sign-Up & Financial Profiling	AI-Powered Analysis & Negotiation	Settlement & Ongoing Recovery
Actions <i>What does the customer do?</i>	- Registers/logs into the platform - Enters loan details (amount, EMI, overdue duration) - Provides monthly income information	- Reviews financial health score & debt stress analysis - Requests a settlement prediction - Generates an AI negotiation letter	- Sends negotiation letter/settlement request to lender - Tracks negotiation history and outcomes - Monitors financial health metrics over time
Touchpoint <i>What part of the service do they interact with?</i>	- Login & Registration page - Loan details input form - Financial Dashboard	- Settlement Predictor module - AI Negotiation Letter Generator - Financial Health Tracker	- AI History Module - Settlement Request feature - Dashboard progress tracking
Customer Thought <i>What is the customer thinking?</i>	"Is this platform secure with my data?" "Will this actually help my situation?" "I hope setup doesn't take too long."	"Is this settlement amount realistic?" "Will my lender accept this letter?" "This breakdown finally makes sense."	"Did my lender respond to the offer?" "Am I improving my financial position?" "I want to keep this record for later."
Customer Feeling <i>What is the customer feeling?</i>	- Cautious - Curious - Slightly hopeful	- Relieved - More confident - Cautiously optimistic	- Empowered - Reassured - Optimistic about recovery
Process Ownership <i>Who is in the lead on this?</i>	Frontend & Onboarding Team (Auth / Loan Management APIs)	AI & Financial Processing Team (Gemini Integration, Prediction Engine)	Customer Success & Backend Team (Settlement APIs, History Tracking)
Opportunities <i>How can we improve this stage?</i>	- Add guided onboarding tooltips - Auto-fetch loan data via bank integration - Simplify form with progressive disclosure	- Allow letter tone customization - Add multi-language support for letters - Show confidence score for predictions	- Send automated status reminders - Add lender response tracking - Celebrate debt-reduction milestones
