Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statements — AI Powered Debt Relief & Financial Recovery Platform

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower struggling with multiple overdue loan EMIs.	Reach a fair settlement with my lender.	I don't know what settlement amount is realistic or how to propose it.	I lack financial expertise and access to my full repayment history.	Anxious and overwhelmed about my growing debt.
PS-2	A borrower with irregular income trying to manage loan repayments.	Understand my true financial health and repayment capacity.	I have no clear view of my EMI ratio, monthly surplus, or debt stress level.	Manually tracking these numbers across loans is time-consuming and confusing.	Uncertain about whether I can keep up with payments.
PS-3	A financially distressed borrower who wants to avoid default.	Send a professional negotiation letter to my lender.	I lack the legal and financial writing skills to make a compelling case.	I have never negotiated a debt settlement before and don't know the right tone or format.	Hesitant and unsure about approaching my lender directly.
